Comments:

1. According to some sources IDF/AF units shot down two UAV in total belonging to Hizbollah. One of the drones was shot down over Kibbutz Cabri, in the Western Galilee. The other drone was downed over the southern Lebanese port city of Tyre (*Verluste IDF/AF und Libanon von 07/2006 bis heute*, http://www.pomtom.de/Losses_IDFAF-L_dat.html). However other sources credit only one kill this day, which was achieved by the crew of F-16D Block 30F "Barak", number 074, belonging to 109 Tayeset "Valley / Ha' Emek" (*Představení zabijáci Ababilů*, informujeme, in *Letectví+kosmonautika*, No. 5, 2007). It is possible that the second UAV wasn't shot down by an aircraft but by anti-aircraft artillery.
2. An Israel Air Force warplane on Thursday December 16th 2010 shot down an apparently unmanned balloon that flew over the Dimona nuclear reactor.
3. The Israeli Air Force shot down an unidentified aerial vehicle that penetrated Israel's airspace on Saturday October 6th 2012. IDF forces shot down the drone over the Negev, south of Mount Hebron.
4. At around 1.30 PM local time on Apr. 25, 2013, the Israeli Air Force (F-16D Block 52, 99-9413/YD-64, No. 844, 201 Tayeset) shot down an UAV (unmanned aerial vehicle) from Lebanon over the sea off Haifa, in norther Israel. An F-16C Block 30A (87-1661/4J-16, No. 340, 117 Tayeset) intercepted and downed the drone whose remains fell into the sea, at approximately 10 kilometers from the coastline, withinin Israel's territorial waters, where Israeli warships are currently searching for debris.
5. 23 February 2017. An IDF fighter jet shoots down a Hamas drone flying from the Gaza Strip toward the Mediterranean Sea, the army says.
6. 29 October 2019. Israeli fighter jets shot down a drone that was flying at an "irregular altitude" over the Gaza Strip on Tuesday, the Israel Defense Forces said.
7. 13 May 2021, The IDF says its air defenses have shot down a Hamas drone that crossed into Israel. "The airforce tracked the drone until it was downed," the army says. The incident comes a day after an F-16 shot down an armed Hamas "suicide drone" that tried to enter Israeli airspace.
8. 14 May 2021, The IDF says its air defenses have shot down a Hamas drone that crossed into Israel. "The airforce tracked the drone until it was downed," the army says. The incident comes a day after an F-16 shot down an armed Hamas "suicide drone" that tried to enter Israeli airspace.
9. 18 May 2021. At roughly 4 a.m. on Tuesday, the Israeli Air Force downed the drone as it approached the Israeli border from Jordan.
