Comments:

1. According to some sources IDF/AF units shot down two UAV in total belonging to Hizbollah. One of the drones was shot down over Kibbutz Cabri, in the Western Galilee. The other drone was downed over the southern Lebanese port city of Tyre (*Verluste IDF/AF und Libanon von 07/2006 bis heute*, http://www.pom-tom.de/Losses_IDFAF-L_dat.html) However other sources credit only one kill this day, which was achieved by the crew of F-16 "Barak", number 074, belonging to 109 Tayeset "Valley / Ha' Emek" (*Představení zabijáci Ababilů*, informujeme, in *Letectví+kosmonautika*, No. 5, 2007). It is possible that the second UAV wasn't shoot down by an aircraft but by anti-aircraft artillery.
