

RAF NORDIC CLAIMS OF ENEMY AIRCRAFT
Last updated 20-05-2005 by Knut Larsson

It is my hope in the future that this new register will be a complete list of claims of e/a made by Nordic pilots in British services during World War 2. Sadly most of pilots and crewmembers does not live anymore and few to day knows about their activities against te German Air Force Luftwaffe. Their air combats took place from the Norwegian coast in the far north down south to the coast of North-Africa in the periode 1941 to 1945.

My first object is to fulfill a listing and then start the complicated work to identify possibly Luftwaffe unit involved. After a while I then planned to value the Claims against known losses and wrote some articles about it..

However to day I could say that the register shows several occasions with substantial overclaiming, mostly by 331 SQN. On the other hand the register show that Nordic pilots probably were able to brought down several leading Luftwaffe fighter aces.

Danes is marked with (dk) and Swedes with (sw) behind the names and no marks for Norwegian. Only one Icelander is to be found, however no Finns are known. Additionally to the Royal Air Force (RAF), Pilots and crewmembers from the Royal Norwegian Air Force (RNAF), Royal Canadian Air Force (RCAF), South African Air Force (SAAF) and British Overseas Airways Corporation (BOAC) are also included. This list is not yet necessary accurate and may be wrong about Dates, Places, Names, Fates etc etc

If you need helps on details about the list or have any COMMENTS or CORRECTIONS, YOU are always welcome to contact me on e-mail: klarsson@online.no

Thanks for helping goes to:
John Foreman, Donald Caldwell, Jochen Prien, Christopher Shores
Mikkel Planthtin, Jan Liby, Jørn Junkers
